About the charity...

Hillingdon Autistic Care & Support (HACS)

HACS was founded in 1997 by a group of parents and carers in Hillingdon with an autistic family member. They started out as a support group in a local church hall and in 2001 they operated their first playscheme for just eight children.

In November 2009, they secured their very own premises, the current HACS Resource Centre in Hayes. Their facilities include an administration suite, secure outdoor space, sensory room, conference/training room and two classrooms. A base in the heart of the community significantly raised awareness of HACS and demand for their services amongst both families and professionals increased.

HACS is different because:

- they understand the challenges faced by autistic people and their families. They have both professional and personal experience of living with autism.
- they listen to the people they support and respect what is important to them. They are there when they are needed most.
- they create opportunities for autistic people to reach their full potential. They break down barriers, celebrate diversity and focus on ability.
- they are passionate about autism and improving lives. They will always 'go the extra mile' to make a difference. They take pride in their work and are committed to achieving positive outcomes for all the people they support.
