

Better Care Fund Plan 2026-27 – Expenditure Guidance

Number	Category of scheme	Description
1	Assistive technologies and equipment	Using technology in care processes to support self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Community based equipment, Digital participation services).
2	Housing related schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.
3	DFG related schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes. The grant can also be used to fund discretionary, capital spend to support people to remain independent in their own homes under a Regulatory Reform Order, if a published policy on doing so is in place.
4	Wider support to promote prevention and independence	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and wellbeing.
5	Short-term home-based intermediate care (rehabilitation, reablement and recovery services)	Short-term (up to 6 weeks), therapy-led services in the person's usual residence (home or care home), following the 'Home First' principle. For adults 18+ to regain independence post-illness/injury/discharge (step-down) or prevent admissions/long-term care (step-up). Person-centred, with initial assessment and regular reviews; led by registered therapists (physiotherapists, occupational therapists, speech/language therapists) plus support from unregistered workers and other professionals (nurses, doctors, social workers). Outcomes: better function, confidence, wellbeing; less carer reliance and long-term care demand. Domiciliary social care (personal care, domestic help) included only within a rehab/reablement-focused package.
6	Short-term home-based social care (excluding rehabilitation, reablement and recovery services)	Short-term domiciliary social care (e.g. personal care, help with domestic tasks, voluntary sector support), except where it is provided as part of a package that also includes rehabilitation, reablement and/or recovery services.
7	Long-term home-based social care services	Ongoing social care services (e.g. personal care, help with domestic tasks), helping people continue to live at home and maintain independence.
8	Long-term home-based community health services	Ongoing health services provided in people's own homes or in other non-residential community-based settings.
9	Bed-based intermediate care (short-term bed-based rehabilitation, reablement or recovery)	Short-term (up to 6 weeks), therapy-led services in a community bed-based setting (e.g. community hospital, care home bed or designated facility). For adults 18+ to regain independence post-hospital stay (step-down) or prevent avoidable admission/long-term residential care (step-up from community). Person-centred, with initial assessment and regular reviews; led by registered therapists (physiotherapists, occupational therapists, speech/language therapists) plus multi-disciplinary support (unregistered workers, nurses, doctors, others as needed). Where safe and appropriate, transition to home-based intermediate care is required to continue recovery at usual residence. Outcomes: improved function, confidence, wellbeing; reduced acute admissions, readmissions and long-term social care demand. May include mixed health and social care interventions.

10	Long-term residential or nursing home care	Ongoing care provided in a residential care home or nursing home for people who need more intensive or specialised support than can be provided at home.
11	Discharge support and infrastructure	Services and activity to enable discharge. Examples include multi-disciplinary/multi-agency discharge functions or Home First/ Discharge to Assess process support/ core costs.
12	End of life care	Schemes specifically designed to provide care and support for people nearing the end of life.
13	Support to carers, including unpaid carers	Supporting people to sustain their role as carers and reduce the likelihood of crisis. This might include respite care/carers breaks, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence.
14	Evaluation and enabling integration	Schemes that monitor or evaluate the impact of integrated care schemes. Schemes or services that enable integrated care, such as (but not necessarily limited to): - Joint commissioning arrangements - Integrated care planning - Helping people navigate services - Workforce development or recruitment and retention
15	Urgent Community Response	Urgent community response teams provide urgent care to people in their homes which helps to avoid hospital admissions and enable people to live independently for longer. Through these teams, older people and adults with complex health needs who urgently need care, can get fast access to a range of health and social care professionals within two hours.
16	Personalised budgeting and commissioning	Various person-centred approaches to commissioning and budgeting, including direct payments.
17	Other	This should only be selected where the scheme is not adequately represented by the above scheme types.
